

INSURE EVERY
SOLDIER IS PLAN
OF GOVERNMENTBefore Congress Adjourns War
Administration to Propose
Federal InsuranceONE MILLION \$4,000
POLICIES PROPOSEDOfficials Busy Now on Gigantic
Plan to Protect Men at
Front

By MILTON BRONNER.

Washington, July 12.—Before this congress has a chance to get away, the administration is going to ask it to pass legislation which will enable Uncle Sam to go into the life and accident indemnity insurance business on the biggest scale in history. At one blow, the administration wants to insure one million soldiers and sailors and to prepare to insure other millions as called into service.

Impelling Reasons.
There are two impelling reasons for this: the administration wants to avoid a huge pension avalanche after the war; second, the insurance companies themselves asked too much to carry insurance policies on our fighting forces. Most of them demanded \$100 per \$1,000 of insurance, in addition to the regular premium.

This looked like penalizing patriotism to Charles F. Nesbitt, superintendent of insurance, District of Columbia. Accordingly he proposed to War Secretary Baker that the insurance companies be asked to form a board to pro rate the insurance on all the fighting forces and to cut the premium if possible.

Not Practical.
Examination proved this not very practical. For instance, if insurance were taken out on 1,000,000 men, the premium, amounting to \$21,000,000, would be dissipated as follows: \$5,000,000 for medical examination; \$10,000,000 for agents' commissions; \$2,000,000 for other expenses. This would leave only \$4,000,000 to be applied to the risks.

If the government itself insured the men, there would be no expense in connection with agents, medical examiners, etc., so it could take the risks at much less cost than the companies. At a meeting of insurance company representatives the other day with Secretary of the Treasury McAdoo 104 voted in favor of the government insuring its men and only four opposed.

Edwin F. Sweet, assistant secretary of commerce, has worked out a tentative plan as follows:

There is to be created, in connection with one of the existing executive departments of the government, a soldiers and sailors' indemnity bureau with a competent insurance man at its head. The necessary actuarial and clerical assistance will be provided. Protection for a definite amount, not exceeding \$4,000, will be automatically furnished to everyone in the military and naval service of the country without regard to rank and without expense to the insured.

Scale of Indemnity.
This insurance will cover partial or total disability as well as death. All losses will be paid in regular installments. All adjustments will be made with the least possible delay. As concrete evidence of the government's obligation a certificate or policy may be given each soldier and sailor. In addition, each man may buy extra insurance to the amount of \$6,000 on terms as favorable as in peace time, the government issuing the policy. The scale of indemnity for injuries is being worked out.

It is also proposed to center in this indemnity bureau the paying of separation allowances to the dependents of soldiers and sailors. This has never been done in this country, but Canada and England have done it throughout this war.

In order to carry out these insurance and allowance plans specific legislation and appropriations will be required, but it is not anticipated congress will balk, as the subject will come very close to millions of families.

JEWISH RELIEF
TO BE URGEDRabbi Sternheim to Speak at
Auditorium Sunday After-
noon

On Sunday afternoon at 3:30 Rabbi Sternheim, representative of the American Jewish relief committee for sufferers of the war, will address a public meeting at the Auditorium. Everybody is invited to attend. The relief committee is trying to raise the sum of \$100,000 for the relief of the destitute Jews in war-ridden Europe.

Rabbi Sternheim is a most forceful speaker and from his home town, Sioux City, Iowa, word reaches The Tribune that there are few men in the states better able to portray the sufferings of his people than he. Other speakers, prominent on the local platform, will be in attendance and help in this most worthy cause.

Germans Practice All
Forms of Brutality on
Deported Belgian Citizens

Havre, July 12.—The Belgian government has received from various sources evidence proving that deported subjects are subjected to mistreatment to bring them to forced labor for the German army. The evidence exposes insufficient nourishment, cruel punishment, brutal intimidation, and hard conditions of labor under which many deported civilians succumb, while a larger portion return so reduced and weakened that they are incapable of physical efforts. In the camp of Soltan, the interned are never given meat, fish or cheese. In cer-

tain camps the evening meal was suppressed altogether and even the other meager repasts were reduced for those who refused to work.

Men Exposed.

Besides hunger the principal measures resorted to in order to bring the men to submission, were the "supplice of the post." The men are exposed to heat or cold, according to the season, for days together, during which the food rations are reduced until they reach the proportion of (Continued on Page Three.)

HOLWEGG HAS
RESIGNED POST
OF CHANCELLORKaiser Delays Acceptance Until
He Confers With Imperial
CouncilBEICHTAG INSISTS UPON
CONSTITUTIONAL REFORMS

Berne, Switzerland, July 12.—The Vossische Zeitung of Berlin says the German Imperial Chancellor, Dr. von Bethmann-Hollweg, has resigned. Emperor William, the report adds, has postponed his decision whether to accept the chancellor's resignation.

An official communication issued in Berlin yesterday says Emperor William expressed the opinion that the political and constitutional reforms demanded by the reichstag are such that they concern not merely himself, but his successor, inasmuch as they were to be permanent. For this reason, the emperor summoned the crown prince to attend one or more of the crown councils at the final decision regarding the extent to which the crown and the government will make concessions to the reichstag will be reached.

Emperor William had an interview lasting several hours with Chancellor von Bethmann-Hollweg, and received his report on the political situation, according to semi-official dispatches from Berlin.

DELAYS MEETING.

Berlin, July 12.—The reichstag, which planned to meet Wednesday probably will not convene until the May committee, whose session was postponed at the request of Chancellor von Bethmann-Hollweg, has completed its deliberations.

RAIL BOARD CUTS
OUT FEES IN NEW
GRAIN GRADE ACTDoubtful as to Constitutionality
of Feature—Leaves No Mon-
ey for Deputies

Fearing for the constitutionality of the clause which provides for the assessing of a fee for each load of grain or other farm products weighed and graded under North Dakota's new grain grading act, the state railway commission today voted to eliminate that feature of the law until the courts have passed on it.

It had been estimated that this grain grading fee would net a revenue of at least \$500,000 per annum, from which the act provided for setting aside 25 per cent each year for the creation of a terminal elevator fund. With the elimination of this fee the act must depend for the payment of inspectors' salaries and other expenses upon the \$10 fee which deputy inspectors are required to produce. It is very doubtful whether this amount will prove sufficient.

The commission today also approved the appointment by Dr. Ladd of J. A. McGovern, former grain grader for the Equity Co-operative exchange at St. Paul, to be chief inspector under the new act. Mr. McGovern had 30 years' experience in the farmers' elevator business, in South Dakota before he went to St. Paul.

The abolition of the revenue to be derived from fees raises another constitutional question. The act provides that all grain must be inspected before it can be purchased. Therefore there must be inspectors at every elevator. The law provides for the licensing of elevator men as deputy inspectors. The constitution also holds that no man's property may be seized for public use without compensation. The courts have ruled that a man's time and services are property. There is said to be a question whether deputy inspectors can be compelled to serve without pay. If they cannot, the fees must be reestablished or an effort to operate the act abandoned.

CAPT. LONNEVIK HERE.

Capt. Tom Lonnevik, a Philippine veteran, who will command Devils Lake's new company in the Second regiment, was in the city today, reporting excellent progress with recruiting.

STEEL OUTPUT
AVAILABLE FOR
GOVERNMENTPrice to Be Determined Upon
Basis of Production
CostFEDERAL TRADE BOARD
STARTS INVESTIGATION

STOCKS SLUMP.
New York, July 12.—Stocks broke sharply at the opening of today's market, the result of President Wilson's warning to business interests against excess profits.

Shipments were most seriously affected, Atlantic gulf and West Indies dropping almost six points, and Marines preferred about three. Losses in other shares, especially steel and war equipment, ranged from one to two points. United States steel made an extreme decline of two and one-half and one-half points to 125.

Washington, July 12.—Formal announcement was made by Secretary Baker today that an agreement has been reached with the representatives of the American steel industry in conference here, under which the entire product of the country would be made available for the government's war purpose at a price to be determined on the basis of cost of production, inquiry being conducted by the federal trade commission.

On their side, the government representatives assured the steel men that reasonable profits would be included in the price fixed and that provision would also be made to care for the extension of the industry to meet new demands.

FOR SOAKING PATIENT
Guard at Insane Hospital Charged
With Abusing Maniac

Jamestown, N. D., July 12.—Charged by Supt. W. M. Hotchkiss with beating a patient, Audrey Hanchette, guard at the state hospital for the insane, has been bound over to district court.

BLACK HILLS TRAIL
EXECUTIVE OFFICERS
MEET HERE AUGUST 7Plans for Blazing Great Highway
and for Publicity Work to
Be Perfected

A meeting of executive officers of the Devils Lake, Bismarck and Black Hills trail will be held in Bismarck on August 7, when plans will be made for the blazing of the highway and for an extensive publicity campaign, which will familiarize tourists everywhere with its advantages, announced Vice President George N. Keniston, upon his return from a directors' meeting at Lemmon, today.

The Denver Cut-off.
Ultimately the Black Hills trail will extend from Winnipeg to Denver and will form a link in the most direct routes from Canadian points to the Cody entrance to Yellowstone National park. The trail also will be connected from Denver with the southern entrance to America's greatest natural playground.

Every mile of the proposed route from Bismarck to the Black Hills is established rural post road, which will make it easy for the association to obtain federal and state aid. Every mile of the trail now is in use, and from Lemmon to Bismarck, Vice President Keniston, who has just driven over the route, announces that the highway already is in tiptop condition.

Avalanche of Huge
Poles Crushes Out
Life of Workmen

Relle Fourche, S. D., July 12.—Caught under an avalanche of huge poles as they rolled from a flat car from which they were being unloaded for a local power company, Conrad Maul was crushed to death. He was 37 years old and came here from St. Paul, in May to work in the sugar beet fields. A widow and five children under 11 survive.

NO LETUP TO
GEN. BRUSILOFF'S
CALICIAN DRIVERussians Capture Kalicz, City of
8,000 Population Near
StoryGERMANS HALTED IN
ATTACK ALONG YSERCrown Prince Tries Another Fu-
tile Attack in Region of
Verdun

General Brusilloff's offensive in Galicia is developing into a drive with little or no letup, at least, so far as the part in it played by General Korniloff's armies.

Today Kalicz was officially reported captured. The German's attacked Monday on the Belgian coast ceased with the capture of the small sector east of the Yser, which the Germans had devastated with their gunfire. Neither last night's nor today's official announcement records fighting of moment in this region, although the artillery is continuing active. A German raid near Lombardzyde was driven off by the British.

On the Verdun front the German crown prince made a number of attacks on both sides of the Meuse. All these assaults delivered in the vicinity of Hill No. 304 on the one side of the Aisne, and north of Haraumont works on the other were repulsed by the French, as were attacks on the Aisne front, south of Juvincourt and in the region of the Triangulate plateau.

TAKE KALICZ.

Petrograd, July 12.—The Russians have captured Kalicz, the headquarters of the enemy in Galicia, after a sanguinary battle, according to official announcement made today. According to information received at the ministry of war the Russians are continuing their successful attacks and have taken a large number of prisoners.

Kalicz is a city of about 8,000 population, 28 miles southeast of Stry.

BAER LEAD NOW
NEAR 4000 OVER
OLGER BURTNESSTalk of Contesting Election Dies
Out as Nonpartisan In-
creases His MarginsVOTE WILL RUN SEVERAL
THOUSAND SHORT OF 1916

(Tribune Special.)

Grand Forks, N. D., July 12.—With Baer's lead over Burtness increased to near the 4,000 mark and with prospects that the 17 scattering precincts yet to be heard from will increase the league candidate's plurality, talk of contesting the election owing to the irregular form in which the governor's proclamation was issued is dying out.

With 528 precincts complete out of 545, the votes for the three leaders today stands as follows:

Baer	12,681
Burtness	8,533
Bangs	3,387

Baer's plurality over Burtness in this count is 3,848, and his majority over Burtness and Bangs is 461. It is estimated that Baer's vote and the few scattering ballots marked for Wick, Plain and Cuthbert, the reluctant republican candidates, will not exceed 2,500. Indications are that the total vote will be smaller than the 28,000 polled by Frazer last fall, and considerably less than the 34,000 votes cast in the last regular congressional election.

BIG BREAKS
IN CORN PRICES

Chicago, July 12.—Big breaks in the value of corn resulted today from the action of the board of trade directors last night in establishing a maximum price for new crop deliveries. General selling took place as soon as the market opened, and quotations in some cases made a sheer descent as much as 12c.

The fixing of a maximum of 31.25 a bushel for the December, 1917, and the May, 1918, corn was regarded by members of the board as practically putting a stop to speculation in the new crop of that grain. An official of the board said the establishment of a maximum price for December, and later options, seemed necessary to bring trading conditions into harmony with the government's war policy of preventing undue speculation and unwarranted high prices to consumers.

No Information on
Draft Until Evening
Of Drawing at Capital

Washington, July 12.—Persistent inquiries from all parts of the country for information about the method to be followed in selecting men for the national army caused war department officials to explain today that President Wilson's determination to have fairness govern the process was responsible for the decision to withhold the announcement of the exact plan until the eve of the draft drawing.

The exemption regulations and all other moves in the making of the army have received the approval of the president personally and the draft

regulations also will come from the white house. What is known now is that the drafting will be from serial numbers, corresponding with numbers on registration cards, and will probably be made at the capital. Secretary Baker or some other high official will draw the first number and then the process of selection will be pushed forward until there is dashed by telegraph to every community the numbers of the men drawn. It is understood the system planned is so simple that the work will be done in a few hours.

500 HEAD WILL
FACE CHARGE
IN MINOT COURTPresident Pennington Agrees to
Answer Summons of Attor-
ney General LangerTOO MANY SHIPMENTS
PREVIOUS TO JULY FIRST

Minneapolis, Minn., July 12.—North Dakota's drinkers loaded up with future supplies at an unprecedented rate just before the state bone dry law went into effect July 1. As a result, Edmund Pennington, president of the Soo line, is to appear at Minot within a few days to have his say about the charge of violation of the state liquor laws that have been placed against him there.

Pennington's offense, it is said, is purely impersonal. North Dakota charges that the railroad carried too much liquor into the state. Mr. Pennington is the road's highest official. Therefore he was picked out for the accusation some time ago.

There were no further developments until today, when North Dakota officials announced that the railroad's president had agreed to appear in Minot Saturday before Judge A. B. Dill.

Mr. Pennington confirmed this only in part. He declared his willingness to face the North Dakota charge, as he was about to make an inspection of his North Dakota lines, he doubtless would be in Minot within a few days. He did not state any specific date.

NEARLY 200 MEN
ASK CHANCE FOR
TRAINING CAMPMajor R. R. Steedman Believes
North Dakota's Quota Now
Is AssuredLIEUT. MELLA TO MAKE
PHYSICAL EXAMINATION

With nearly 200 applications for the second officers' training camp at Fort Riley, Kan., now on file, Major R. R. Steedman, examining officer for North Dakota, is confident the state's quota of 113 men will have been filled with acceptable candidates by the time the camp opens, about Aug. 25.

This does not mean, however, that applicants now filing will not have an excellent opportunity to qualify. It will be remembered that the number of applicants for the first training camp, now in progress at Fort Snelling, was several times greater than the quota. It is not to be expected that every applicant will be accepted, and anyone who possesses the qualifications, and especially men from 25 to 40 years of age, may apply to Major Steedman up to midnight July 15, to which date the time limit for receiving applications has been extended, because of the 15th falling on Sunday.

Lieut. Hugo Mella of the medical reserve, now assigned to Fort Lincoln with the Second battalion, First infantry, has been commissioned from Washington as medical examining officer in North Dakota for the military training camps' association, and beginning about July 18 he will accompany Major Steedman to Fargo, Devils Lake, Grand Forks, Minot, Carrington, Jamestown, Bismarck and Dickinson, to which points candidates residing in the vicinity will be directed to report for examination.

The examining officers probably will be in Bismarck from July 30 to Aug. 3, spending the ensuing two days at Dickinson.

TO VALUE LANDS

Commission Named to Estimate
Fort Peck Minerals

Antelope, Mont., July 12.—Chester Arthur of Poplar, representing the Indians and C. A. Wallace, superintendent out of the Fort Browning reservation, have been commissioned to appraise the vacant mineral lands on the Fort Peck reservation. Many tracts in this reservation are believed to be heavily mineralized, and the towns affected are much interested in seeing them developed.

SLOPE WILL GET
NEXT CONVENTION
AND PRESIDENCYMissouri Valley Honored by Selec-
tion of Mandan and Eleva-
tion of BellGRAND FORKS LOSES TO
MORTON COUNTY CAPITAL

Fargo, N. D., July 12.—Mandan was chosen as the 1918 convention city by the North Dakota Bankers' association at its 15th annual convention meeting here today.

C. R. Green of Cavalier was elected president and J. L. Bell of Bismarck, vice president of the organization. W. S. Hanks of Powers Lake was elected treasurer, while W. C. McFadden of Fargo was re-elected secretary.

Grand Forks Loses Out.
Grand Forks was Mandan's principal competitor for the honor of entertaining the bankers next year. Inasmuch as several years have elapsed since the bankers met in the Slope, their last western session having been held in Bismarck, Mandan, whose commercial club conducted an active campaign, was awarded the honor with the probability that Grand Forks will get the 1919 meet. In 1916 the bankers met at Minot.

Bell Next President.
The 1918 meeting will be very much of a Missouri valley affair, inasmuch as through the law of precedence, which has ruled in the association for several years past, J. L. Bell of the First National bank of Bismarck, elected vice president today, next year will succeed to the presidency.

C. R. Green, the newly elected president, is with the Merchants' and Farmers' bank of Cavalier. He succeeds J. E. Phelan, president of the First National bank of Bowman, who presided over the successful convention which came to a close this afternoon.

When troops of Co. A pulled Mike Stimac, Austrian, from a Northern Pacific freight train upon which he was endeavoring to cross the Missouri river bridge in violation of military regulations, they made an unexpected haul, as Stimac proved to be a slacker, who, for reasons not divulged, had failed to register. He also is an enemy alien, although, if his name means anything, he is a Croat or Slavonian, a native of provinces under Austrian domination, but not at all in sympathy with the monarchy.

In any event, Stimac, a young man of 27, is basking in the county jail, awaiting arrival of a United States marshal, who will transfer him to Fargo to answer for his overstay. With Stimac are John Hosh, another Austrian, and John Rohowich, Russian, picked up in Bismarck without registration certificates, and who will accompany the marshal to the Gate city. All are under 30.

Troops Congratulated on Unusual
Haul—Three Non-registrants
Are Being Held Here.

When troops of Co. A pulled Mike Stimac, Austrian, from a Northern Pacific freight train upon which he was endeavoring to cross the Missouri river bridge in violation of military regulations, they made an unexpected haul, as Stimac proved to be a slacker, who, for reasons not divulged, had failed to register. He also is an enemy alien, although, if his name means anything, he is a Croat or Slavonian, a native of provinces under Austrian domination, but not at all in sympathy with the monarchy.

With Stimac are John Hosh, another Austrian, and John Rohowich, Russian, picked up in Bismarck without registration certificates, and who will accompany the marshal to the Gate city. All are under 30.

POPULAR HOTEL GIRL
DIES SUDDENLY SHOCK
TO TRAVELING CLANS

Minot, N. D., July 12.—Miss Margaret Glassner, aged 19 years, who has been in charge of the cigar stand at the Leland hotel for some time and who has a wide acquaintance with the traveling fraternity in North Dakota, died very suddenly Tuesday at a local hospital. She had been sick but a few days. The remains were sent to White Rock, S. D., for burial.

150 CHARTER MEMBERS

Jamestown Council, K. C., Starts
With Strong Roll

Jamestown, N. D., July 12.—The newly instituted council of Knights of Columbus, in whose installation 125 visiting knights from Fargo and Bismarck participated, has a charter membership of 159.

1,000 I. W. W.'S
RUN OUT OF
MINING TOWNBisbee, Arizona, Suspends All
Business to Rid Town of
AgitatorsARMED GUARDS FORCE
THEM ABOARD CARSThree Hundred Citizens Heavily
Armed Leave for Trouble
Center

Phoenix, Ariz., July 12.—The entire town of Bisbee has suspended business and the citizens protective league, numbering 1,500, fully armed, have rounded up 1,000 members of the I. W. W. and have searched them and are now leading them to trains, where they will deport them at 11 o'clock.

LEAVE FOR BISBEE.

Tucson, Ariz., July 12.—A telephone message from Douglas, Ariz., said 300 citizens from Douglas, heavily armed, and with three machine guns left for Bisbee today in automobiles to assist in the I. W. W. roundup there. Twenty-five box and cattle cars have been sent to deport the I. W. W. members. Railroad officials would not indicate the destination of the train after it leaves Bisbee.

WANT TRAIN STOPPED.

Globe, Ariz., July 12.—Former Governor Hunt, personal representative of President Wilson on the strike mediation board, was appealed to today to stop the train upon which the miners were being deported.

"Two thousand miners being deported by the corporation gunmen from the Warren district. Stop that train," the message said, which was signed by Attorney W. V. Cleary of Bisbee.

It was reported that the I. W. W. members would be forced to flee into Mexico, as California, Texas and New Mexico had put up the bars against them.

DONE SYSTEMATICALLY.

Phoenix, Ariz., July 12.—The deportation is being done systematically by the citizens protective league, an organization of business men, mine operators and miners opposing the I. W. W.

Business men and miners who want work have determined that the entire industry at the camp should not long be tied up. Therefore all business was suspended for the clean-up. All shops were closed, and no mining operations were attempted. Before night, the citizens protective league announced that there would be nothing in Bisbee with an I. W. W. mark.

Attorney General Whitney stated that he had been advised that two men had been killed at Bisbee, one of these being a deputy sheriff and the other one of the strikers. Definite details of the affairs are lacking.

SWEDEN CHAFES
UNDER EMBARGO

Stockholm, July 12.—General resentment and indignation has been aroused in Sweden by a new dispatch from Washington, giving what is said to be "an official report to the government" for which the authority is not made, declares that Sweden exported to Germany great quantities of material for making ammunition, including especially, iron ore and imported iron ore to replace the surplus exported.

Even newspapers most friendly to America join the chorus of condemnation of these charges. The papers call attention to America's attitude regarding exports and arraign what they term the government's inconsistency.

The feature of an entertainment last evening to introduce Miss Magda Davenport to the younger society set of the city was the patriotic decorations arranged about the home at 922 Fifth street. The event was given by Miss Gertrude Barth. Most interesting parts of the evening were the musical number by Miss Muriel Floren and the contest in which Miss Floren took first prize and Miss Violet Schroeder, "booby" prize. Among the girls present were The Misses Muriel Floren, Helen Lucas, Lois McGittigan, Winnifred Knudsen, Violet Schroeder, Jeannette Shipley, Mildred Morrisroe, Dorothy Blunt and Marie Davenport. Refreshments were served during the evening.

SENATE CANNOT
ACREE ON BILL

Washington, July 12.—Democratic leaders of the senate finding it well impossible to reconcile conflicting views on the food control bill decided today to appeal to President Wilson to outline his opinions of what compromises should be agreed upon to hasten action.

NEWS OF NORTH DAKOTA AND NORTHWEST

NORTH DAKOTA BAPTISTS MEET FEDERAL BOARD

Important Session in Progress in Gate City Today to Discuss Mission Work

Fargo, N. D., July 12.—The board of the North Dakota Baptist State convention is here today to meet a deputation from New York representing the American Baptist board, consisting of Dr. L. C. Barnes, field secretary of the Home Mission Society, New York city, and Dr. Robert E. Farrer and Dr. John R. Brown, both pastors of prominent eastern churches and chairmen of important committees of the Home Mission Society. These gentlemen are spending their vacation this summer in traveling over the field where the Home Mission Society does much of its work. This society spends upward of \$5,000 each year in the Baptist work of this state.

Members of the state board expected to be present are: Judge F. P. Allen, Lisbon; R. B. Griffith, Grand Forks; Rev. Bruce E. Jackson, Bismarck; E. R. Pratt, Cavalier; Dorr Carroll, Minot; Rev. Harvey G. Moore, Grand Forks; Rev. A. E. Peterson, Fargo; and Rev. A. M. Mehus, Fargo. In addition to the members of the board, several field workers and Rev. C. E. Tingley, superintendent of the Baptist missionary work in the state, and pastor at large, W. R. Hill, Colporteur, C. J. Hill and others, Dr. Bruce Kinney, Topeka, Kan., district secretary of the Home Mission Society, is also expected.

FARGO DENTIST PASSES AWAY IN EASTERN CITY

Unexpected Death of Dr. McCarter Comes as Blow to Friends in North Dakota

Fargo, N. D., July 12.—Dr. Edward H. McCarter, Fargo dentist located at 16 Broadway, died in a hospital in Cincinnati Tuesday afternoon, according to telegraphic advices, reaching his home, 823 Tenth avenue north, last night.

Death followed an operation which he submitted to recently. Dr. McCarter left Fargo about the middle of June. At the bedside were his brother,

Dr. Ernest McCarter of Great Falls, Mont., and his sister, Catherine. The body was brought to Fargo this evening on train No. 2 of the Great Northern.

Dr. McCarter was a graduate of Marquette University and had been practicing in Fargo for the last 10 years. He was a member of the National Dental Association, the North Dakota Dental Association, and the Fargo-Veatch-Baptists' organization. He was also a fourth degree member of the Knights of Columbus. Funeral services will be held from St. Mary's church at 9 o'clock Friday morning, according to present arrangements.

CANADA WANTS N. D. LIGNITE

Winnipeg Engineer Will Look Over Possibilities at Hebron

Winnipeg, Man., July 12.—W. P. Brereton, city engineer, will soon make an inspection of the lignite coal industry as carried on in Hebron, N. D., with a view to relieving the high cost of the fuel situation in Winnipeg. He will be accompanied by a representative of the Canadian department of mines. Mr. Brereton believes there is a good possibility for obtaining cheaper fuel for this city than it at present obtains.

The Manitoba government had the serious consideration of the coal question as it affects public buildings before it today.

It appears that the government will be short on contracts already entered into to the extent of 10,000 tons. This is mostly American steam coal and dealers simply cannot get the coal with which to fill contracts.

The government has decided to make an attempt to secure coal in North Dakota and if it costs more than that contracted for, to have an adjustment with contractors.

Aberdeen Commercial Club Frankly Admits Project Is Too Big

Aberdeen, S. D., July 12.—The Aberdeen Commercial club is believed to have established a record for pronunciation organizations by frankly confessing, in its report on the million dollar equity packing plant which Aberdeen had an opportunity to locate, that the stock growing industry of the vicinity has not developed sufficiently to accommodate a plant of such magnitude.

\$4 FOR 10-HOUR DAY DEMANDS OF TOWNLEY UNION

Meeting Held at Minot Yesterday Behind Closed Doors Leaks Little Information

REASONABLE AGREEMENT OFFERED THE FARMERS

Minot, N. D., July 12.—Nonpartisan discussed the Industrial Workers' proposal behind closed doors Wednesday afternoon. No one but leaguers and Workers were admitted. President Townley and Commissioner of Agriculture and Labor Hagan and H. C. Whipple, who were on the committee which met with the Workers at Kansas City recently, were present and laid the plan before the meeting. D. C. Coates of the league announced last night that 190 of the 200 present voted to recommend the acceptance of the proposal.

Three more meetings will be held, in Valley City, Bismarck and Devils Lake, for the purpose of explaining matters to leaguers; then a referendum will be taken of leaguers by mail. Only those who vote for accepting will be bound by the agreement.

League Heads Mum.

Officials of the league declined to give out details of the agreement, but a Tribune representative interviewed L. M. Johnson of Des Moines, a member of the league present in the convention, who stated the Workers wanted 40 cents per hour for a ten-hour day, with pay for overtime at the same rate of 40 cents, and the same rate for necessary work on Sundays.

The Workers agree not to interfere with unorganized labor or farmers employing it. They also agreed to accept the best lodging the farmers could give them, and in the event of a lay-up caused by rain the Workers will pay the farmers one dollar a day for board after the third day. In the event of a breakdown in the field, the Workers will not demand pay if idle longer than 15 minutes.

Johnson said the main opposition was in the belief of farmers that the I. W. W. would live up to their agreement in view of their past record.

The I. W. W.'s Coming.

Agent Belanger of the Soo Line announced last evening that 50 I. W. W.'s beat their way into Minot on a Soo freight last night. Arthur Le Sueur was present at the meeting, but Coates claimed not as representing either of the parties.

MINOT CITIZENS OBJECT TO MAKING SKY LIMIT

Procure Temporary Restraining Order From Judge Leighton Against Bond Issue

Minot, N. D., July 12.—Objecting to making the sky the limit for taxation, A. M. Olson and Elmer Wechselt have procured from Judge K. E. Leighton a temporary injunction restraining the city commission from selling the \$186,000 bond issue authorized by Minot at a recent special election. The petitioners claimed that Minot's bonded indebtedness already is \$200,000 in excess of its constitutional limit.

FINISHES FAMILY TREE FOR MOTHER MORTON

Former State Auditor Carl O. Jorgenson Has Completed Herculean Task

Mandan, N. D., July 12.—A complete record of all official transactions of Morton county, dating back to 1875 and embodying 251 pages, has been prepared by Carl O. Jorgenson, formerly state auditor, employed as special accountant in the division of Morton and Grant counties. The record shows every dollar that has been collected and expended since the organization of Morton county, notes the various unsuccessful efforts made during the last 40 years to divide "Imperial Morton," and, of particular interest to what remains of Morton county, shows that \$300,000 is due the mother county from Grant.

Bride-to-Be Forgot All About Wedding And Took in Parade

Jamestown, N. D., July 12.—Gustav Essais and Miss Wanda Senke of Kensal came to town circus day in an unusually happy frame of mind. Not only did they intend to see the big three-ring show, but they had planned a nice little one-ring circus all their own, with the parson as the ringmaster. Leaving his bride-to-be waiting at the church, Gustav hastened to the county clerk's for the license. Re-

turning Gustav found no Wanda. Disheartened, he rushed to police headquarters and reported his loss. Chief Obermiller is tender-hearted and he devoted his personal energies to a fine piece of detecting, which discovered the prospective bride only a block away, chewing peanuts and admiring the elephant. The knot was tied immediately, and so far as police reports are concerned, it was not again loosened that day.

GRAND FORKS ACCEPTS PACKING PLANT BIDS

Big Minneapolis Company to Construct Establishment for Valley

Grand Forks, N. D., July 12.—The Splady, Albee & Smith General Construction company of Minneapolis has been awarded the contract for the Northern Packing company's \$500,000 plant to be erected in Grand Forks, and preliminary work now is under way. Plans and specifications for the plant have been approved by the department of agriculture at Washington. H. R. Elliott, recently of Duluth, will have charge, and the capacity will be 500 hogs and 150 cattle and sheep daily. The company was organized with a view to providing a home market for North Dakota livestock growers, and it has 500 stockholders among the farmers and business men of the northern half of the state.

Bloodless Custer Massacre Repeated at Valley Fiesta

Valley City, N. D., July 12.—The Custer massacre was bloodlessly, but blood-curdlingly re-enacted here today by 50 Indian warriors, some of whom were descendants of original participants, and 100 state troops from Co. G. In the sham battle between the reds and the white 1,250 rounds of ammunition and a numberless quantity of war whoops were expended. A crowd of 8,000 people witnessed the thrilling spectacle in which the hedge-podge Indian braves, war paint and feathers, squaws, blankets, paposes and Pinto ponies made some brilliant splashes of color.

CREAM RATES EFFECTIVE JULY 15; SAVE THOUSANDS

Grand Forks, N. D., July 12.—The Grand Forks Commercial club, which originally petitioned for the reduction, claims credit for the new cream rate

Haggart Block Distributors Bismarck, N. D.

The factory will issue a new price list affecting certain models possibly during July and certainly not later than August first.

Bucking Broncho as Industrial Accident Problem for Board

Antelope, Mont., July 12.—The state industrial board is asked by Hjalmar Woten, who a year ago came to Montana from North Dakota to

try his hand at broncho bucking, to determine whether being pinned by a broncho which declined to be broke constitutes an industrial accident within the terms of Montana's year-old compensation act. Woten claims the horse was loosed and claims \$11,000 damages for certain injuries sustained during the 30 seconds which elapsed before he lost consciousness.

White Magic

USE S. S. White Tooth Paste for a week. Then smile into your mirror and learn what a really efficient dentifrice will do for your teeth.

S. S. White Magic is merely the magic of a thorough cleanser.

While making no impossible "germicidal" claims, S. S. White Tooth Paste is mechanically antiseptic and is as delightful to use as it is efficient. Four Diamond Tires

Most people only think of one tire at a time—
But an automobile isn't a wheelbarrow—you ride on four tires.
One Diamond Tire saves you a lot and gives you a lot more service for the money. Four Diamonds multiply that saving and service by four.

Get Diamond Squeegee Tread Tires—with the black tread and red sides—get the long life and unusual service in (this specially woven) fabric expertly combined with rubber that is alive with resilient resistance.
You may need only one tire today. Get a Diamond. Keep on until you are riding and saving on four of them.

Every Diamond Tire must deliver full value in service. If ever a Diamond Tire fails, a cheerful, willing adjustment will be promptly made.

MEMBERS OF RED CROSS MAY GET BUTTONS NOW

Supply of Insignia Received To-day—N. D. Senator Thanks Commercial Club

NO BETTER USE OF FUNDS, SAYS M'CUMBER

Mrs. F. L. Conklin announces today that the Red Cross buttons have been received and may be obtained from her or from J. L. Bell, vice president of the First National bank, or from Bradley C. Marks, vice president of the City National bank. Each member is entitled to one of these buttons.

Thanks Commercial Club. George N. Keniston, secretary of the Commercial club, has received, among others, letters from Porter J. Mcumber, United States senator from North Dakota, and Mrs. E. H. Lovell, chairman of the Beach Ladies auxiliary, thanking the club for its assistance in the campaign.

Senator Mcumber's letter follows: "Washington, July 5, 1917. "Mr. George Keniston, "Secretary Commercial Club, "Bismarck, N. D.

"My Dear Mr. Keniston: "I have your favor of June 30 advising me that 'Burling county has more than doubled its apportionment of the Red Cross fund and the war Y. M. C. A. fund. I take pleasure in congratulating the people of Burling county on the patriotic spirit evinced by these contributions. The work done by these two associations is of untold value and the funds donated by the citizens of Burling county could not be used more advantageously. I shall be glad to have you extend to the various contributors through your club my hearty congratulations. "Very truly yours, "P. J. M'CUMBER."

The letter from Mrs. Lovell thanks Mr. Keniston and the Commercial club as follows: "Beach, N. D., July 7, 1917. "Mr. Keniston:

"I wish to thank you and the Bismarck Commercial club for assistance in our recent campaign for funds. "I find that we were changed to the central division during the campaign, which accounts for our not receiving material that was needed. Mr. Hayward is our treasurer, so I think the accounts will be easily completed when we get blanks. Mrs. Roxie Jones is secretary. "We all worked very hard and realized nearly \$400 from the chautauqua, which includes a collection the last evening of \$153.15. "The sum of all donations to date total \$1,100; pledges, \$250, and crop (23 acres), \$410. We, the Beach auxiliary at large, are two months old and have done much sewing, besides the campaign.

"Sincerely, "MRS. E. H. LOVELL, "Chairman"

How to Write Your Soldier Boy Abroad

Is your son, your brother, or your fiancé, perhaps, "somewhere in France?"

And does "somewhere in France" seem a hazy address for the letter you are anxious shall not miss fire, whether it reaches him in barracks or in trench, or at the concentration camp before he goes to the front?

If you will follow the government's instructions in addressing your mail the government will do the rest. And a letter written, handled and dispatched from American shores by people who do not know the whereabouts of the recipient will reach with the least delay the spot "somewhere in France" known probably to only a few people. Let your envelope read:

Return to Mrs. John Smith Blank St. Bismarck, N. D.

John Smith, Jr. Company X, Blank Infantry American Expeditionary Forces Just your own return address and complete designation of the division, regiment, company and organization to which the addressee belongs! Do not attempt to give location of the unit.

Postmasters will forward to New York all mail addressed to the American Expeditionary Forces.

You can send money to soldiers with the troops by obtaining at your local postoffice a money order designating the office of payment as "U. S. Army Postal Service."

There is no provision yet for parcel post service.

The coolest place in town is at the Orpheum. Theatre is now cooled with the latest ice coolers.

How Long Must I Suffer From the Pangs of Rheumatism?

Is there no real relief in sight?

Doubtless like other sufferers, you have often asked yourself this question, which continues to remain unanswered.

Science has proven that your Rheumatism is caused by a germ in your blood, and the only way to reach it is by a remedy which eliminates and removes these little pain demons from your blood. This explains why liniments and ointments can do no permanent good, for they cannot possibly reach these germs which infect your blood by the millions.

S. S. S. has been successfully used for Rheumatism for more than fifty years. Try it today, and you will find yourself at last free from the pain and suffering of your Rheumatism. You can get valuable advice about treatment of your individual case by writing to the Chief Medical Adviser, Swift Specific Co., Dept. D, Atlanta, Ga.

ALL COUNTY BOARDS HAVE ORGANIZED; FEW REPORTS STILL OUT

The announcement published in The Tribune earlier in the week, emanating from the adjutant general's office to the effect that Hettinger, Oliver and certain other counties had not organized their exemption boards, has called forth telegraphic and telephonic denials from Hettinger and Oliver, both of whose boards claim to have organized on the date specified. They failed, however, to formally report their organization to the adjutant general's office, which reported them, accordingly, among the missing.

Today all but five county exemption boards have reported to the adjutant general's office and have sent in their serially numbered duplicate sets of registration cards.

FORT LINCOLN Y. M. C. A. ROOMS OPENED TODAY

Secretary L. E. Goodwin Enthusiased Over Prospect for Good Work at Post

TWO BASEBALL LEAGUES FORMED AMONG TROOPS

North Dakota's first war Y opened at Fort Lincoln today, when Secretary L. E. Goodwin of the Jamestown Y. M. C. A. established association headquarters in the post exchange building. Secretary Goodwin has been here since Monday, getting the work under way, and he is enthusiastic over the prospect for effective service at the fort.

Reading tables, writing desks and stationery for the use of employees and other Y. M. C. A. features will be inaugurated immediately. Secretary Goodwin, who is an experienced athletic director, already has organized two battalion baseball leagues, and a schedule has been adopted. Two or three intercompany field meets will be staged during the coming week, to be followed by one big battalion meet in which winners of preliminary events will compete.

The boys have also named committees in each company to make arrangements for a minstrel show, which will be offered at the Auditorium in the near future. The battalion contains much real talent, and the big show promises to be an entertaining feature of the military life of the capital.

The association will appreciate donations of books and current magazines for the reading tables. The soldier boys are inveterate readers, and they are constantly running out of material. Citizens of Bismarck are urged to throw away no magazines, but to call Secretary Goodwin at the post exchange, who will arrange for their concentration at some convenient point and their transportation to the fort.

GERMANS PRACTICE ALL FORMS OF BRUTALITY

(Continued from page one)

half rations only for two days' subsistence. Another cruelty practiced upon deported to force them to work is the severe application of the Turkish bath. Several witnesses have confirmed this fact, among them the son of a manufacturer of the region of Antwerp, who with several of his comrades in camps, was shut up in a small room heated to a very high temperature. There was only room in the place for them to stand erect, and so crowded that they were scarcely able to turn. They were left there for 24 hours.

Die from Mistreatment. Then they were led to a factory where they were asked to go to work. Upon their refusal they were taken to a field under military escort. Their overcoats, shoes, scarfs and hats were taken from them, and they were exposed in a snowstorm an entire day and an entire night with nothing to eat or drink and under the absolute prohibition not to make the slightest movement. Some lost consciousness after a few hours, and all were taken to the hospital the following day. The son of the manufacturer died from the mistreatment.

AIR RAIDS OVER RIGA. Berlin, July 12—"During the last few days our air squadrons successfully and repeatedly dropped bombs on the batteries near Zerk and Anensburg and the island of Oesel, off the Gulf of Riga," says an official statement issued today. "Large fires were observed. Despite violent firing by hostile batteries, all our aeroplanes returned safely."

Good Excuse. George did not like to go to dancing school. One day while his mother was dressing him for the school he said: "Mother, it is foolish for me to learn to dance. As soon as I get old enough I will have to go to war anyway."

Woman Press Agent Says She Likes the Snap of the Circus

WOMAN PRESS AGENTS AND PETS. "I'm Not a War Development," Says Miss Miller, in Advance of Barnes' Animal Circus. This Is Miss Miller's Second Year as Press Agent, and She Is an Ante Bellum Belle.

Miss Emma C. Miller, who says she comes from California, but smiles in more congenial manner than a native daughter of that state, came in this morning and threw a bomb into the camp by citing that she was a press agent for a circus.

That's what war does for us sometimes. We have women press agents for religious movements, lectures, speakers, bureaus and even commercial institutions, but a woman press agent for an elephantine combination in the shape of mixed animals and circus equipment is a new feature.

Anyhow, Miss Miller, who is a clever newspaper woman and has seen a good many of the human tribe regularly pulling off the animal comedy, states she has abandoned that system and will devote her attention hereafter to the quadrupedal species, and while the circus advance has its drawbacks for a woman, "I am constantly meeting new people, and have come to enjoy the intelligent and courteous factors in business life. It is a new experience and I find it worth while."

For years the Al G. Barnes four ring wild animal circus has been the most popular tented exhibition in the country. This big jungle town will favor Bismarck with a one day's visit July 21.

This organization is now larger than ever before, and among the brand new attractions to be seen—nowhere else—is a donkey, educated to sing, a scream? It certainly is. The show's program is the most elaborate, thrilling and sensational two hours' exhibition of wild and domestic animal education ever exhibited. Two steel arenas, and two sawdust circles, 1,000 animal actors, electric fans, electric lights, 150 animal educators, 506 attendants, 30-piece military band. A program of 65 feature acts full of zip and dash. Surely some circus! One that will easily outclass, in interest and excitement anything on record in canvas show history.

WEALTHY SUFFRAGIST FOUND IN FACTORY

Miss Pomeroy is a wealthy Montana suffragist and daughter of former Justice Charles W. Pomeroy of the Montana supreme court. She was found in Philadelphia, where she had been working in a factory. She explained she was driven to factory work when other women told her she was not worth the salary paid her as a "Four Minute" Liberty Loan speaker in New York.

FAIR COATINGS

New York, July 12—No man can possibly tell whether one style of woman's fall apparel is a coat or a dress. Advance fall designs are perhaps less convincing than summer models, because they are less draped, and more severely tailored.

One of the most attractive of coat designs for fall is distinguished by a graceful skirt arrangement of side plaits. First shown in fall fashions in design in the place of the rather short and modestly full skirt.

"Manning" Navy, or answering Uncle Sam's added attraction to regular program at the Orpheum tonight.

"WITCHING HOUR" AT AUDITORIUM TODAY

"The Witching Hour," the Frohman Amusement corporation's screen adaptation of the drama written by Augustus Thomas, is shown at the Auditorium today and tomorrow.

The New York Evening Mail has to say of the production: "The Frohmans have turned out a bully film play. For one thing—and unlike four-fifths of the current productions—it has a story, big, vigorous and well told. Mr. Thomas made mental telepathy the basic theme of his drama. It is a drama through mental suggestion acquires the young hero of the story."

"The Witching Hour" has a genuine grip and a mental message of uplift. It is an admirable and thoroughly commendable screen play.

SOCIETY

Hugelen-Kroeber.
The announcements for the marriage of Miss Mabel Hugelen, daughter of Mr. and Mrs. S. J. Hugelen of Napoleon, to Mr. Adam Kroeber, also of Napoleon, are being mailed to friends. The event will take place at Aberdeen, S. D., Saturday, July 14, and Mr. and Mrs. Kroeber will be at home in Napoleon after September 1.

Urges Big Attendance.
A large attendance of members is urged for the regular Degree of Honor meeting to be held in the K. C. hall tonight. Initiation of candidates will be held. All members are asked to bring scissors to aid in the making of fracture pillows.

Entertains Motorists.
Miss Jessie Johnson entertained at luncheon at the Grand Pacific hotel Tuesday noon in honor of her brother, Howard Johnson and wife of Birmingham, Ala. Mr. and Mrs. Johnson were in the city several days while en route home from an extended trip through the west. The guests at luncheon were Mrs. D. T. Owens, Mrs. W. C. Taylor and Miss Lella Dessem. The centerpiece was of poppies.

Harvey Redfern of Wing was in the city yesterday, paying taxes and leasing hay lands.

From Scotland.
Mrs. M. Serr, Jr., mother of E. M. Serr and Mrs. C. F. Treiber, sister of Mr. Serr and two children from Scotland, S. D., arrived in town and are the guests of Mr. Serr and family at their home on Fourth street. Later Mr. Treiber will drive from Scotland and will join his family here for a visit.

Thursday Mr. and Mrs. E. M. Serr and their guests will motor to Stanton, where they will attend the chalet. While in Stanton they will be the guests of Mrs. Serr's sister, Mrs. J. E. Pulles.

Visit Medora.
Medora was visited yesterday by Fathers Bigman and Hiltner; Mother Superior Boniface; three other sisters, and Miss M. D. McPake and Miss M. McCauley, all of Bismarck.

After visiting St. Athanasius church the Nicholls mine and the Foley residence they proceeded to Wibaux, Mont. This was the first visit of Father Hiltner and the sisters to Medora. All of the party was much interested in the wonderful scenery of the Bad Lands. To show what could be grown here Sister Boniface was handed a dish of fresh picked strawberries and then shown the vines where more were growing.

DICKINSON HAS BIG CHAPTER OF THE RED CROSS

100 Charter Members Join—Hettinger Booster Club Active

—Reader Interested
(Special to Tribune.)

Dickinson, N. D., July 12.—Dickinson this week completed the organization of one of the largest and most enthusiastic chapters of the American Red Cross society on the Slope. The charter membership of 100 includes many of the most prominent and influential citizens of Stark county, and all have pledged their best efforts to the work.

The organization meeting was addressed by Secretary George N. Keniston of the Bismarck Commercial club, which headed the recent record-breaking Red Cross drive in Burleigh county, when in a week's time \$32,650 was raised for the work of the organization in the war zone. Officers elected are: Mrs. O. H. Agarn, president; Miss Wagner, secretary, and Mrs. H. E. Bonzer, treasurer.

Hettinger Interested.
The interest of Hettinger was shown by the attendance of its booster club in a body. The organization expressed itself in favor of doing everything in its power to forward the work, and announced its intention of backing up the Hettinger women who have assumed leadership in the campaign there.

Reader had representatives present and they took home with them a blank application for the organization of a Red Cross auxiliary in their town.

GREAT RECEPTION FOR SECOND REGIMENT MEN GIVEN BY CROSBY FOLK

Band Turns Out, Citizens Form Escort, and Recruits Roll in Rapidly

(Tribune Special.)
Crosby, N. D., July 12.—Genuine patriotic enthusiasm characterized the reception tendered here yesterday by Adjutant F. G. Neumier and Capt. W. A. Stickley upon their arrival in Crosby to complete the recruiting of this city's company for the Second regiment. The Crosby band, the local Red Cross chapter and scores of prominent citizens in automobiles met the officers at the station and escorted them down town, where a banquet had been spread. The feed was followed by a band concert in the street, after which Neumier and Stickley made brief talks from automobiles, telling of the remarkable precedent which has been established in the recruiting of the Second regiment in 10 days' time. At the close of their remarks recruits rolled in so rapidly that the mustering officers found it difficult to accommodate everyone. It is estimated that 40 bonafide recruits were obtained as a result of the drive.

Class Holds Picnic.
Miss Dena Wetherill, teacher of the intermediate Sunday school class at St. George's Episcopal church, gave the class an outing at the capital grounds yesterday, from 2:30 to 7:00. The picnic was attended by eight girls, who, with their teacher, played games, and told stories. The picnic lunch closed a pleasant afternoon.

FREE FOR LADIES AND CHILDREN.
On Saturday we will give away 500 Orpheum theatre tickets to the ladies and "kiddies," starting at 9 o'clock, in our new location, at 422 Broadway. Klein, Tallor and Clean.

"The Final Payment" presents Nance O'Neal in her greatest photoplay, at the Orpheum, tonight only. Try a Tribune want ad for results.

MINOT DIVIDED AS TO RIGHT OF MOTOR BOAT NAVIGATION ON MOUSE

Members of City Commission and Commercial Organization Uphold Traffic.

Minot, N. D., July 12.—The injunctive suit brought against owners of motor boats on Mouse river by Dr. A. Carr and other residents along the river will come before the jury at the sitting of the district court opening in Minot on July 16. This was decided upon by Judge Buttz at the hearing of the application for a preliminary injunction on Tuesday. Judge Buttz, of the Second district, presided, on the request of Judge Leighton, who declined to act, as he was on the bench the time the matter received the attention of the court; before. In the temporary injunction suit, Judge Buttz reserved judgment.

Attorney G. S. Woodledge on behalf of the city commission and the park board applied and was heard as an intervenor. He set forth a number of contentions why the river should not be closed to motor boat traffic, one of them being that the boats help purify the water from which the city secures its supply. The action of the park board in assuming the role of an intervenor was rather singular, inasmuch as one of the plaintiffs, Dr. Carr, is a member of the board.

The Minot Association of Commerce and the Minot Town Criers have strongly endorsed the cause of the defendants. The decision of the jury at the district court will be awaited with interest, but it will hardly be final, as either side will undoubtedly carry the matter to the supreme court if defeated. The supreme court gave a decision before in the matter and sustained the claims of the plaintiff that the river is an unnavigable stream.

VAN LEAR'S SPEECH RILES JERRY BACON

Minneapolis, July 12.—Thoroughly aroused by Mayor Van Lear's address of welcome, in which he said, "All the Huns were not in Europe and that this does not set well with him to have an autonomy enacted by the few over the many in Minnesota," J. D. Bacon of Grand Forks, N. D., gave a patriotic talk before the fifteenth annual convention of the Northwestern Hotel Men's association, which opened here today.

The remark of Mayor Van Lear to which he took exception came after the mayor had welcomed the delegates to the city. Among the things the mayor said were:

"We all hope things will ease up, as conditions are not exactly to our liking. Europe is not the only place on earth where we can find Huns."

Bacon said: "Not until the bear gives up her cubs or the eagle her young, will we give up our patriotism. I've fought Wilson many times, but that was politics. I have never fought my government and never will. I have little sympathy for anyone who does not believe in the Liberty loan or the Red Cross."

CITY NEWS

Alfred Andersen of the Publicity Film company returned Wednesday evening from a trip to the eastern part of the state.

Attorney C. L. Young is out of town for two days, on legal business.

Among the visitors at the office of the superintendent of county schools on Wednesday were: Herman Gierks of the Frances school district, William Brown and Alex Spenquist of the Painted Woods district, and Misses Ethel and Blanche Small of the Fort Rice district.

Oscar Bachman of Wilton made a business trip to Bismarck on Tuesday. Attorneys Beardsley and Doughty of Wilton spent yesterday in Bismarck.

Mr. and Mrs. A. N. Larson of Baldwin are the parents of a son, who was born at the Bismarck hospital, Wednesday evening.

Jacob Sattler of Hazelton came to Bismarck yesterday to lease hay lands.

Mrs. A. A. Bruce of Fifth street is expected home this evening from Chicago, where she has been making a two-months' visit to her mother.

Gasoline Springs Equipment.—Dr. E. P. Gasman has just returned from St. Paul, where he purchased surgical instruments for the Bismarck Surgical Station, No. 1. This is probably the last trip that he will have to make in this connection. The headquarters of the Red Cross are rapidly completing the task upon which they have been engaged. Fourteen boxes have been filled and are now sealed and labeled, and the contents of the others are ready to pack.

Miss Annie Orchard of Jamestown, who has been the guest since last Thursday of Mrs. Dana Wright at Fort Lincoln, returned to her home yesterday.

Miss Helen Register, 814 Fourth street, who recently underwent an operation for appendicitis at a local hospital, is much improved at this time. It was announced today.

Miss Sarah Morris, 714 Sixth street, is spending the week with friends in Jamestown.

Mrs. McGrath of Minnesota and Mrs. Gary of Nebraska are visiting at the home of Mrs. Lydia E. Morris in this city.

Mr. and Mrs. W. D. McIntyre have returned to their home in the Rose Apartments after spending some time in Minneapolis.

K. C. Meeting Tonight.—A regular meeting of the Knights of Columbus will be held in the K. C. hall tonight, at 8:30.

To Improve Property.—At the meeting of the school board, Wednesday afternoon, it was decided to advertise for bids for painting the North Ward school and other necessary repairs for that building, and for repairing the roof of the high school building. MUST HAVE WAITING ROOM.

The railway commission today ordered the Northern Pacific railway to open a waiting room for passengers on the high line at Valley City and to maintain sufficient lights there in the evening. A member of the commission recently had occasion to catch a limited train on the high line, and was forced to stand outside in the drenching rain because he found the waiting room locked up. The moment he reached Bismarck he got action, and the order of today is a result.

ELEVATOR CO. BLAMELESS.
An elevator company which declined to release about \$2,900 worth of grain stored by a Coleharbor patron until the latter made good on some substantial notes for which he had deposited his storage tickets as security, yesterday was held blameless by the railway board, which suggested to the complainant that his case was one for the courts rather than the commission to decide. The elevator company proved that it had acted within the law in holding up the grain.

HALF.
With all the examples of nerve in perseverance in baseball there is, perhaps no more striking example than that of William Forsythe, 19, Freeport, O., boy, who is trying to make a pitcher of himself.

Half blind, Forsythe lost his right eye when a child, and handicapped with a crippled hand, the youth is one of the best amateur pitchers in northern Ohio and hopes to break into professional ball next year.

Forsythe lost his thumb several years ago, but by practice, learned to get a firm grip on the ball. He has an assortment of curves and a good change of pace.

Recently he fanned 35 men in two games, holding his opponents to three hits in the first contest, which is pretty good evidence of his control.

DOINGS OF THE DUFFS. By Allman

WILBUR IS A WELL SEASONED SOLDIER.

"We were living at Rheims when the Germans swept across Belgium and into France," said Mme. Mazzuchi to me at the Netherlands hotel, telling the thrilling story of her work at the front. "Everything in my home was destroyed during the bombardment, but I was not in the house. I and my daughter, just 12, were busily engaged near the front line trenches, helping to care for the wounded. Fortunately, I had had some training in nursing and first aid work, and I did what I could, with my daughter's help. I still carry a German bullet, received while working on this front. "I worked on, helping to care for the refugees at the French front, until Italy declared war. As the wife

ONLY FIRST REGIMENT TO BE CALLED JULY 15; SECOND COMES LATER

New Organization Must Be Inspected and Approved Before Being Accepted

Only the First regiment, North Dakota infantry, will be called into federal service July 15, according to orders received this morning by Adjutant General Fraser. Authority for the Second regiment to be called into federal service will be obtained after a telegraphic report of inspection for federal recognition with recommendations has been made, state the instructions. With the First regiment will be called the First field hospital company.

No formality will accompany the transfer of state troops into federal service. The call will be made at the companies' home stations. No oath will be necessary under the new national guard organization. The president's proclamation now is sufficient to accomplish that for which considerable swearing of one kind and another was required under the old form.

No further instructions have been received with regard to the mobilization of state troops. An order received early in the week designating Fort Lincoln as the mobilization camp site for all state troops is the last word on this subject to date.

15 HOURS A DAY'S WORK FOR ITALY'S WOMAN AMBULANCE DRIVER, HERE SEEKING AID

By F. M. KERBY.

New York, July 12.—The only woman ambulance driver ever commissioned by the Italian government is in New York after a strenuous service at the front both in France and Italy. She is the beautiful Mme. Daisy Mazzuchi, wife of the former Italian consul, stationed at Rheims at the outbreak of the war. For the past year she has been driving her own ambulance with the Italian army at the front.

"We were living at Rheims when the Germans swept across Belgium and into France," said Mme. Mazzuchi to me at the Netherlands hotel, telling the thrilling story of her work at the front. "Everything in my home was destroyed during the bombardment, but I was not in the house. I and my daughter, just 12, were busily engaged near the front line trenches, helping to care for the wounded. Fortunately, I had had some training in nursing and first aid work, and I did what I could, with my daughter's help. I still carry a German bullet, received while working on this front. "I worked on, helping to care for the refugees at the French front, until Italy declared war. As the wife

Mme. Daisy Mazzuchi and her war ambulance.

of an Italian consul, I believed I should work then for my husband's government. So I went to the Italian front.

"I work 15 hours a day in my hospital and every 24 hours I drive from 25 to 40 miles in my ambulance to bring in the wounded.

"Women can be just as useful at the front as men. No woman with courage, initiative, and intelligence need fear to drive an ambulance, or do any other work behind the front line of the battle front.

"Women are not less courageous than men, and in many situations they are more useful."

Mme. Mazzuchi is in this country seeking aid for the work of the Italian ambulance service.

See Nance O'Neal in "The Final Payment," at the Orpheum, tonight only.

DROUTH MAY COST STATE HOSPITAL A BIG SUM IN CROPS

Estimated That Loss, Unless Rains Come in Near Future, Will Be Near \$20,000

Unless a good, soaking rain comes within the next few days, the continued drought may cost the state \$20,000 in the loss of potatoes and garden produce at the state hospital for the insane at Jamestown, reported Messrs. Brown and Nagel of the state board of control on their return today from an inspection of this institution.

Stutsman county, advises the board members, has not had a thorough drenching since April. Potatoes and other garden produce is at a standstill. Crops upon which the hospital relied not only for a summer supply of fresh vegetables, but for canning for winter use, have been almost a complete failure. Thousands of cans purchased for the institution remain empty.

The loss of farm produce will mean an added burden of probably \$20,000 on the state for the purchase of food-stuffs. No provision for such an emergency was made in the budget for the state hospital, nor is there a sufficient amount at the disposal of the emergency commission to meet this contingency. The situation, should not be withheld much longer, will be really grave, announces the board of control.

NEW FARGO BUGOLOGIST.
Graduate of University of North Dakota Succeeds Newell.

Fargo, N. D., July 12.—F. W. Stevenson has taken up his work as bacteriologist of the Fargo sub-station of the state public health laboratories, succeeding C. N. Newell, who has accepted a position with the Kankakee, Ill., city water department.

Mr. Stevenson is a graduate of the University of North Dakota, class of 1916, and has spent the last year as a student in the Rush Medical college in Chicago.

INDIAN IS HEALTHIER

Uncle Sam's Fight to Save Race Is Bearing Fruit.

Trachoma Largely Subdued in Schools and Infant Mortality, Once Appalling, Reduced.

Those who think of the Indians as members of a dying race are not acquainted with the progress of the work carried on in their behalf by Uncle Sam's department of the interior.

To struggle against tuberculosis and trachoma, and the fight to lower a high infant mortality rate, are generally conceded to be the greatest problems confronting medical men of the Indian office. Supplementing the work of regular agency doctors, special physicians at intervals visit the various reservations, performing eye operations, caring for defective teeth and spreading information.

Already trachoma has been very largely subdued in the schools, and such new cases as appear generally come from outside. Acute cases are segregated and treated with regularity, and at present a large majority of the cases known are among the old and feeble. The unhealthy manner of living that marks the period of transition between the old life and the new is fast passing.

The building of sanitary homes is urged and the value of clean food and cooking utensils emphasized. As a result of the campaign, there has been within the last three years a very noticeable falling off in the number of illnesses and deaths from tuberculosis.

Last year structures valued at \$775,885.57 were built on Indian reservations, and included practically everything from frame cottages and office buildings to heating plants and flour mills and laundries.

The younger generation now knows that a sturdy child grows into a sturdy man, and great care is taken of the young mother in childbirth. Before the present administration assumed control, three-fifths of the little Indians died before they were five years old. The introduction and enforcement of modern methods has reduced this appalling percentage, and the health of the Indian is now, as a whole, far better than it has been at any other time since he came under the influence of the white man.

INDIANA WOOD IN FRANCE

Used in the Making of Gunstocks and the Wooden Part of Airplanes.

Nobleville, Ind.—Airplanes, the wooden parts of which are made from walnut trees from Hamilton county, are flying over the battlefields of France, and gunstocks made from the same kind of wood, cut from the same territory, are in the hands of the British who are fighting on the western front.

D. I. Neher, who operates a sawmill in this city, is filling an order for the British government for walnut timber. The contract calls for 20 carloads, and all the lumber is to be used in the manufacture of airplanes and gunstocks. Neher has contracted with A. L. Purcell for 25,000 feet of walnut timber in a strip of woodland in the vicinity of Nora. It brought the top price of \$6.50 a hundred feet.

Try a Tribune want ad for results.

NEW MONSTER U-BOATS NOISELESS. SAYS SWISS

A Swiss newspaper correspondent who recently visited Kiel says the German submarines of the latest type are cruisers of 2,000 or more tons, with a radius of action of thousands of miles. At least four of these new U-cruisers have already been built, and several others will be completed this summer.

The submarine cruisers have several batteries of six-inch guns and three torpedo tubes. Their speed is said to be over 20 knots per hour on the surface and 12 knots submerged. Each one of the vessels has a crew of more than 100 men.

An important feature of the new monster submarines is that they have noiseless motors. After diving they move silently through the water and their presence cannot be detected by an enemy ship even with the finest instruments.

POOH-BAH JOINS THE ARMY

Sandberg Held Nearly Every Office in His Town, But War Wooded Him.

Banger, Mo.—When Carl J. Sandberg of The Folks enlisted the other day with Company E of Skowhegan, which is now doing guard duty, he upset the entire officialdom of the town. He was principal of the high school, assistant postmaster, chairman of the board of selectmen, superintendent of schools, notary public, tax collector and game warden.

But patriotism overcame all these honors, and he walked out of all these official robes to help Uncle Sam in his scrap with the Kaiser.

The Folks is not a large place, having about 200 residents and a valuation of about \$300,000. It is largely a lumbering community and is fifty miles southeast of Skowhegan, in Somerset county. Sandberg was not the whole town, but as shown by the honors conferred upon him, he was a real somebody in the community.

STONE AGE WEAPON FOUND

Flint Dug Up in Trench Found to Be Club Head Used in Prehistoric Days.

London.—An Australian soldier digging a trench in France found a strangely shaped knob of flint and fastened to it a strong handle, thus converting it into a knoberry, which he always carried in his belt. He used it to crack German heads in trench raids.

When he brought it to England the interest of antiquarians was attracted by the flint. Investigations and comparisons resulted in authorities agreeing that it was a war weapon of the Stone Age, used then in exactly the same manner as the Australian was using it in 1917 and showing that in the Stone Age men fought over the same battlefields.

The Reason.

"Gracious! Oh, on your honeymoon trip and looking so worried?"

"Yes; it was me worried trying to think up things to do to make people believe I was just married."

NO REGISTRATION CARD,
TWO NEGROES BEATEN

Kansas City, Mo.—Uncle Samuel has a misguided but willing conception of aid in William MacClellan, twenty-two, a structural steel worker. Shortly before midnight MacClellan halted a pair of negroes.

"See this," he queried, showing one of the little blue registration certificates under their noses. "Got one?"

"No," one of the negroes replied, "and what's more, we ain't goin' to wear one of them things."

Whereupon the structural steel worker proceeded to demonstrate the superiority of trained muscle and shortly afterwards marched the negroes up in front of the sergeant's desk at the police headquarters. It was a fearful match for the trio. All three were charged with disturbing the peace.

"That's all right, sergeant," said Uncle Sam's co-worker. "Just put 'em in a cell with me." MacClellan's request was not granted.

Like Father, Like Son.
"Science has reached the conclusion that baldness is hereditary."

"So I hear."

"There must be something in that theory. Observation has taught me that the habit of sitting in the front row at theaters is also hereditary."

Taking a Back Seat.
"The home should be a center of culture," said the high-browed woman.

"I don't object to that," answered Mr. Dubwaite, "but personally I prefer, while Mrs. Dubwaite enlightens the children, to play the part of an interested listener."

FEET AND PART OF FACE FROZEN OFF, CRAWLS UP AISLE TO STAND TRIAL FOR MURDER AT STEELE

Steele, N. D., July 12.—Presenting a pitiful spectacle, Cleon Nash crawled up the court room aisle on his hands and knees today to face the charge of murdering Clarence Hicks last winter. Nash spent eleven of the coldest days of the winter on the open prairie, getting lost in blizzards and staggering blindly around in the search for a bit of cast off food. When he surrendered to the sheriff it was found necessary to amputate his feet and parts of his face which were frozen.

Both Nash and Hicks were young men who had homesteads near Robinson. It is charged that there was much trouble between them and that on the night of Dec. 15, Nash knocked on the door at the Hicks' home and the latter opened it only to receive a bullet in his heart from a .38 caliber rifle, killing him instantly.

When Nash was arraigned Wednesday afternoon he pleaded not guilty and the selection of a jury was started, which will probably be completed today.

Attorney Ed Allen of Newark, N. J., formerly state's attorney of Burleigh county for 10 years, will conduct the defense. He has personally investigated the case for several weeks. It is believed the defense will be temporary insanity, intoxication or self-defense. Judge W. L. Neussle of Bismarck is on the bench.

Thirteen witnesses have been summoned by the state. Sheriff Price, to whom the prisoner surrendered, will be the principal witness for the prosecution and it is expected that Mrs. Nash will testify in favor of her husband.

This is the first murder case to be tried in Kidder county in 25 years.

GIRL ASKS COUPLE TO RETRACT; BEATEN UP; VICTOR IN SUIT

Mandan, N. D., July 12.—An interesting hearing was held before Judge H. L. Henke in the offices of States Attorney L. H. Connolly yesterday afternoon, when Mr. and Mrs. Andrew Jensen were arraigned to answer to the complaint of assault and battery, which action was brought by Miss Lucille Chase. The allegations in the complaint were that Mr. and Mrs. Jensen made insulting remarks about the young girl. Miss Chase went to the Jensen home and called them to task for the remarks. The result was that Miss Chase, it is alleged, was physically abused. She came to Mandan and swore out a complaint against both Mr. and Mrs. Jensen. Judge Henke fined them \$10 and costs of the action. Attorney J. A. Heder appeared for the defendants. The case will be appealed, it is understood.

No Doubt About It.
Granting that it were possible for some one of us to acquire the earth with a fence around it, wouldn't that fellow be cheeky enough to demand that the fence be painted and repainted every six months or so?

The Really Poor.
That man is to be accounted poor, of whatever rank he may be, and suffers the pains of poverty, whose expenses exceed his resources; and no man is properly speaking, poor but he—Paley.

BEAT MEN OVER HEAD WITH BAR WHEN THEY FAILED TO SPEED UP

Fargo, N. D., July 12.—Dimitri Menneff, section foreman at Argusville, is in the county jail, charged with assault with a dangerous weapon on Jim Kopenirum and Mike Peroklam, two of his section hands early yesterday morning. He was arraigned yesterday and his hearing set for 2 o'clock this afternoon.

According to the story told by the complaining witnesses Menneff had become angry with his men for not obeying an order as promptly as desired and had hit both of them with an iron bar. They corroborate their allegations the men show bruises on head, legs and arms.

Kopenirum exhibits a big gash on the side of his head and upper part of the ear where he says the iron bar swung by Menneff hit him. Foreklam has large bumps on his legs and one arm which he claims were caused in the same way.

Menneff appears to have a liking for revolvers, three of them being taken away from him by the sheriff after the arrest.

Golden Rule for Telephone.
There is no hope of teaching the elements of courtesy to a telephone, but the application of the Golden Rule by those who have to use the dumb things might soften some of their irrepressible and irritating idiosyncrasies.—Minneapolis Tribune.

Some Weather Signs.
A deep blue color of the sky, even when seen through clouds, indicates fair weather; a growing whiteness, an approaching storm.

FINLAYSON GIVEN CHANCE TO SERVE 4 YEARS IN TWO

Bismarck Blindpigger Convicted
in Kidder County—Sentence
Made Concurrent.

While life behind prison bars at best must drag, Frank Finlayson of Bismarck, several times convicted of blindpiggering, was given an opportunity to speed up the bands of time in the Kidder county district court yesterday, when Judge Crawford made it possible for him to serve four years in two.

Finlayson was again convicted on a contempt of court charge, taken to Kidder on a change of venue from Burleigh court, and heard at Steele by Judge Crawford of Dickinson. Less than a day was consumed in trying the case. The direct charge was that Finlayson had disregarded an order of the court forbidding the use for the illegal sale of intoxicants of a structure upon which Judge Neussle had plastered an injunction.

In pronouncing sentence, Judge Crawford expressly decreed that the two years' imprisonment assessed against Finlayson should be concurrent with a sentence of similar duration on a similar charge pronounced by Judge Coffey in the Burleigh county district court last April, and in which an appeal now pends.

It is anticipated that Finlayson will appeal from the Kidder decision. Should he win both appeals he will not go to prison. Should he lose both he stands no chance of serving more than two years, in which he would do four years' time—some record for speed.

Nash Case on Today.
Judge Crawford, completing the trial of the Finlayson case at 6 last evening, left last night for his home at Dickinson. Today Judge Neussle called the case of the state versus Cleon Nash, charged with first degree murder. Nash is accused of slaying Clarence Hicks in the latter's homestead shack near Robinson. The alleged slayer was a fugitive for days following the crime, wandering aimlessly over the prairies, and so severely freezing his extremities that both feet were amputated in a local hospital.

The alleged slayer was a fugitive for days following the crime, wandering aimlessly over the prairies, and so severely freezing his extremities that both feet were amputated in a local hospital.

BIG VIADUCT BEING BUILT WITHOUT ANY TRAFFIC STOPPAGE

Important Improvement to Magic
City Presents Unique Engineering Problems.

Minot, N. D., July 12.—Work is being rushed rapidly on the new viaduct, the \$175,000 structure which will span the Great Northern and Soo yards and also the Mouse river. The contract for the masonry work is being done by a Minneapolis concern and the entire work will be completed within four months. A staff of expert engineers is in charge. One feature of the work is the guarantee the contractors have given the city that the traffic on the present viaduct, going from the business section of the city to the northwest section, where the Normal school is situated, or the traffic on the railroads will not be interrupted. When the viaduct is completed it will stand as a monument to President Shaw and the members of the city commission who have worked diligently to bring the railroads and city together. The three corporations divide the cost.

Human Thistle-down.
A gay young man you'll often meet
Who says he's light upon his feet.
But if the solemn truth be said,
He's even lighter in his head.

Real Optimism.
"Still thinking of buying a little farm some day?"
"Oh, yes," replied the optimistic flat dweller. "I never stir the earth in my window boxes with a trowel that I don't dream of the time when I will own a plot of ground large enough to produce a whole can full of angle worms."

Wasted Oratory.
"Why do you refer to me as a 'wind-jammer'?" asked the orator, in some heat.
"Because you talk so much."
"Sir, my speeches are informative."
"Maybe they are, but the trouble is they don't inform me of anything I want to know."

Not the Man.
"I've been looking everywhere for some kind friend to lend me a five-spot," said the chronic borrower, greeting Mr. Grabcoin effusively.
"Far be it from me to discourage you," answered Mr. Grabcoin, with a grim look. "but I fear that your quest is not yet ended."

PUZZLING.

"I'm the man you are looking for," said the applicant for a job.
"How do you know you are?" asked the boss.
"Because I have energy, initiative and ambition. I'm as smart as a steel trap and as quick as lightning. Those who know me call me a human dynamo."
"There's one thing I don't understand," said the boss, thoughtfully.
"What is that?"
"Experts say the supply of men capable of earning \$10,000, \$15,000 and \$20,000 a year is never equal to the demand. Yet, here you are applying for a job that pays only \$12 a week."

UPON HONOR READY MIXED HOUSE PAINT

In buying a house paint quality should always be the first consideration. Misguided people will very often buy a low-priced, inferior paint, in the belief that they are saving money, but in truth, the painting material costs them just as much because more gallons are required. Oftentimes a great deal more, as three coats are invariably necessary, when one or two of good paint would be sufficient.

"Upon Honor" House Paint for real merit is unexcelled by any other, whatever the name or price or reputation. It is a high grade paint in the fullest sense of the term—a paint possessing great durability, clear tone colors, full lustre, ease of brushing and maximum covering capacity.

We fully guarantee the durability.
